DETAILED ACTION

Reissue Applications

The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

The declaration fails to points out the differences of the new claims 9-43 from the original claims 1-8.

Claims 1-43 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

The patent sought to be reissued by this application 10/616,530 involved in litigation. Any documents and/or materials which would be material to the patentability of this reissue application are required to be made of record in reply to this action.

Due to the related litigation status of this application, EXTENSIONS OF TIME UNDER THE PROVISIONS OF 37 CFR 1.136(a) WILL NOT BE PERMITTED DURING THE PROSECUTION OF THIS APPLICATION.

Claim 23 is rejected under 35 U.S.C. 251 as being broadened in a reissue application filed outside the two year statutory period. The patent claim 7 has been broadened by the newly added claim 23 because the feature "a thickness of approximately 0.015 of an inch" recited in claim 7 is not included in claim 23. A claim is

broader in scope than the original claims if it contains within its scope any conceivable product or process which would not have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 8/01/03 has been partially considered. Most of the references listed in Form PTO-1449 under Foreign Patent Documents section have not been considered and have been lined through because their publication dates have not been provided; and all references ("ALL" through "AQQ") listed under Other Documents section have not been considered and have been lined through because they have not been received.

All references listed in the information disclosure statement (IDS) submitted on 7/10/03 have been lined through because they are identical to the references listed in the IDS filed 8/01/03.

Claim Objections

Claims 21 and 40 are objected to because of the following informalities: in claims 21 and 40, lines 1-2, ".rho." should be changed to -- --. Appropriate correction is required.

Allowable Subject Matter

Until at such time all rejections discussed on pages 2-3 have been overcome, an indication of allowability of claims 1-43 is deferred.
